

uncapped ADSL

what is it?

Uncapped ADSL is an unlimited broadband Internet connection that provides always-on connectivity and uncapped data so you can enjoy no restriction on the amount of data you transfer in a month

for who?

For people and small businesses who require no limits on their Internet data usage

purpose

Ideal for video calling, gaming, downloads and running a small office

benefits

- Unlimited Internet access
- Superfast speed
- Always on
- Phone while online
- Pay a fixed monthly price
- Stable connection
- No setup or activation fees
- Secure access

speed

Your connection speed controls how quickly data gets to your computer over the Internet

Fast 384 kbps

A good budget option for one to two users doing mostly web browsing and e-mailing

Download: 384 kbps

Upload: 192 kbps

Faster 512 kbps

Better suited for a family or small office for larger file downloads as well as video streaming and video calling

Download: 512 kbps

Upload: 256 kbps

Fastest 4096 kbps

This is the best option for someone who prefers high speed downloads and enjoys gaming and streaming

Download: 4096 kbps

Upload: 384 kbps

data cap

No data cap or usage threshold

shaping

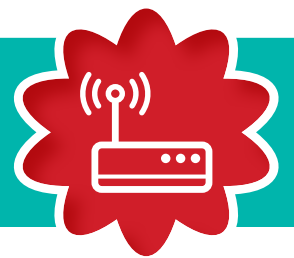

This is a shaped service. Priority is given to normal web browsing, e-mail, online banking and social networking type services.

limitations

- No concurrent sessions. This means you can only log into your ADSL account from one location at a time.

uncapped ADSL

options

Data only

You already have an ADSL line and will pay MWEB for your Internet data package and will pay Telkom separately for your ADSL line rental

All-inclusive

Your ADSL line rental and your Internet data package is bundled together, so you pay less and get a single monthly bill from MWEB
