

SMALL BUSINESS SOLUTIONS – Domain Service

WHAT IS IT?

Registering a domain name with MWEB Connect provides your company with a unique online identity which could be used for all Internet-based communication. It is the first step in establishing your business presence on the World Wide Web.

GETTING STARTED

Before registering your domain name, MWEB Connect will help you to check that the domain name you want is available. We also automatically renew the name on an ongoing basis to ensure that it cannot be reserved or used by anyone else.

In addition to your domain name, MWEB Connect provides a range of additional services to make the most of your online presence. This includes hosting space on one of our servers, a matching email address (e.g. username@companyname.co.za), and substantial discounts on marketing within the MWEB family of sites.

To confirm if your domain of choice is still available call 08600 32000 and speak to one of friendly agents.

HOW MUCH DOES IT COST?

<i>Domain Extension</i>	<i>Setup</i>	<i>Renewal</i>	<i>Transfer</i>
Local
