

## UNCAPPED HOSTING

### WHAT IS UNCAPPED HOSTING?

It is now easier and more affordable to have a website of your own. Uncapped Hosting is a shared web hosting service that includes all the essential elements required to host your website. This offer includes a free domain, uncapped\* hosting space and traffic as well as personalised email and a database for only R19 a month. Plus it's free to MWEB ADSL customers (excluding 1 Gig R29 ADSL) for the first year.

Uncapped Hosting is best suited to small businesses, home businesses and personal websites. Both Unix and Microsoft packages are available with Uncapped Hosting to suit your specific needs.

### BENEFITS

You get all of the following for only R19 a month in one convenient package:

- Free .co.za domain
- Uncapped\* hosting space
- Uncapped\* traffic
- 50 MB MySQL database
- Personal email address
- Website SelfBuild

### FREE .CO.ZA DOMAIN

We will register one .co.za domain name (e.g. mybusiness.co.za) for you and renew it each year for as long as you have Uncapped Hosting, so you can enjoy a domain for life. You can also buy an extra .com or .mobi domain name pointing to the same website.

### UNCAPPED\* HOSTING SPACE

With uncapped\* hosting space, you are able to manage your hosting costs and should your website grow, you don't have to worry about upgrading your hosting package or paying any additional hosting fees.

### UNCAPPED\* TRAFFIC

With uncapped\* traffic, you will not incur any additional traffic or bandwidth costs as the number of visitors to your site increases.

### DATABASE SPACE

A 50 MB MySQL database is included with each Uncapped Hosting package should your website require it. This is great for storing additional information or picture libraries. It is easy to create and integrate with most website development tools. Should you prefer a Microsoft SQL database, you can add it to your package from R59 for a 500 MB database.

### WEBSITE SELFBUILD

With Website SelfBuild, creating and managing your own website is simple.

## PERSONALISED EMAIL ADDRESS

You will receive a personalised email address (e.g. john@mybusiness.co.za) plus five aliases (e.g. orders@mybusiness.co.za). These all include automatic forwarding to any other email address. Additional mailboxes can be added from as little as R20 per 100 MB mailbox.

## ADDING EXTRAS

As your website grows in popularity and size, you can easily upgrade any individual part of your package. You can manage any extra domain names, database space and mailboxes yourself through our handy control panel.

WEBSITE DOMAIN NAME		DATABASE SPACE			PERSONAL EMAIL	
First .co.za domain	Included		MS SQL	MySQL	100 MB mailbox	Included
