

MWEB E-mail Filters

WHAT IS IT?

MWEB automatically protects you against junk mail and viruses that are sent via e-mail by providing the following services:

MWEB Virus Filter

MWEB's Virus Filter automatically cleans your e-mail of any malware it recognises before it reaches your mailbox at no extra charge and without you having to set up anything.

MWEB's Junk Mail Filter

MWEB's Junk Mail Filter deletes most junk mail before it reaches your mailbox, at no extra charge. And, it runs directly on MWEB's e-mail servers so you don't have to install anything.

SIGN IN NOW TO CHECK YOUR JUNK MAIL STATUS

- Find out how any junk mails have been deleted.
- Manage your "Always Allow" list.
- Add the addresses of people that you want to receive mail from.
- Change the settings of the Junk Mail Filtering service.
